WILSON PEACE MOVE IS URGED BY BRYAN

Congress Asked to Assure President of Its Support in Any

Congress has been urged by forme Secretary of State William Jennings Bryan to assure the President of its readiness to support him in any effort he may make to bring about peace in Europe. Returning from New York after attending the departure of the Ford peace party, Mr. Bryan has issued a statement setting forth his desire to see Congress act immediately He states that President Wilson offered his services as a mediator at the beginning of the war, but that was sixteen months ago, and since that time "more than two million men have been killed and more than five million men wounded, while more than \$20,000,000,000 has been spent." An offer of mediation at this time, Mr. Bryan continues, is not only amply justified on the ground of humanity, but it "is demanded. If other reasons are des'red, Mr. Bryan states, they can be found in the obligation of the United States to neutral nations.

"Our nation not only shares the sufferings of other neutral nations." Mr. Bryan concludes, "but the war is being used as a reason for demanding a change in our national policy which lowers our ideals and puts us into a mad rivalry with Europe in the increase military and naval expenditures. To the means of bringing the war to an more than two million men have beer

the means of bringing the war to an d would not only add to our morral duence, but it might save the country billion or more in taxes, and 't would also put an end to the manufacture the public. The other neutral nations walt on us."
